

Meet GCMO's Permanent Fosters! For various health and behavioral reasons, GCMO and their foster parents have decided these greys are better off staying in their foster homes. Many are old or older and need a stable place to live out their lives. GCMO remains financially responsible for these special cases for the rest of their lives. But make no mistake, these hounds are very much loved and provide unconditional love and support to their foster families.

This is **Asia**. She was re-homed in December 2011 and could not love life more at her permanent foster home! She adores her two foster sisters. She loves her daily walks and LOVES all forms of food!

Asia is 13 3/4 years old.

This is **Emmi**. She had to be moved from her original foster home due to the addition of a baby. Emmi came to us a very scared little girl and we all knew she would not do well in a home with a baby. She has been at her permanent foster home with her two greyhound sisters since then. She is now a very happy, but still quirky, girl! **Emmi is 10 3/4 years old!**

This is **Tanner**. She was returned to GCMO by her adoptive family due to medical issues. She now lives with 3 greyhound foster sisters and is doing very well!! She loves to play with toys and is a very happy girlie! **Tanner is 13 years old!!!**

This is **Jericho**. He came to GCMO and was adopted before he turned 3.

He spent 4 very happy years with his mom, dad and greyhound brothers. His mom and dad both became ill and, with heavy hearts, asked us for help. Usually, a dog this young would be available for adoption, but because of medical issues we felt it best to make him a permanent foster. Jericho is very smart and quickly adapted to his new home and 3 greyhound companions. He loves walks, playing in the yard and especially chasing squirrels.

Jericho was 11 1/2 years old!!

Sadly, Jericho passed away in March 2017!

This is **Range**. He was returned to GCMO because of issues with small children. He lived very happily with his family, which included two other permanent fosters, **Kikko and Luka**, but because of serious illness in the family, we needed new places for all the boys. Range is a very happy boy and his foster mom loves him dearly! **Range was 13 years old!**
Sadly, Range passed away in November 2016.

This is **Sunny**. She was not doing well in her first foster home, so she was moved to her now permanent foster home. Sunny has had some health and psychological issues, including cancer, but is doing very well in her home with her two greyhound brothers. **Sunny is 9 1/2 years old.**

Hi, my name is **Rex** (racing name Wild n Reckless). I was so scared when I arrived in St. Louis and I'm still having a hard time coping with being a pet. Rex is what we call a real "spook". He is afraid of everything and even on medication, is still have a hard time. So we decided to make Rex a permanent foster and keep him in his familiar foster home.

Rex is 4 years old!

This is **Terra**. She has been in her permanent foster home since 2007. She came to us with very severe separation anxiety and after a lot of hard work is doing very well in her foster home. She has had many greyhound sisters and currently lives with an older greyhound sister.

Terra was 13 years old!

Sadly, Terra passed away in April 2016.
